ARTICLE B IX CODE OF ETHICS

SECTION 1: PURPOSE

A guideline for members and officers of the National Pigeon Association.

SECTION 2: SPORTSMANSHIP

Competition in the show room has been the main purpose for the majority of NPA members. Others may simply enjoy their birds at home. Still others enjoy color breeding or the study of genetics. Some may simply want to improve upon standards or ad new varieties. Whatever the purpose it is important the NPA foster good sportsmanship. 1) Sportsmanship relies on the values of fair play, honesty, courtesy, dignity and respect to all in the fancy. 2) Sportsmanship encourages vigorous competition while allowing for winning and losing with grace. 3) Sportsmanship insures that members and judges will not inject personal advantage or consideration into their decisions or behavior. 4) Sportsmanship enables a judge to make placements based only on the merits of the birds and considers no other factors. The exhibitor has the responsibility not to enter under a judge where it might reasonably appear that the judge's placements could be based on something other than the merits of the birds. 5) Sportsmanship respects the right of a judge or exhibitor to express constructive criticism. 6) Sportsmanship respects the NPA bylaws, rules, regulations and policies governing the fancy. Constructive criticism is offered with prudence for the benefit of the NPA and the fancy. 7) Sportsmanship would not allow anyone to embarrass the fancy, themselves or the NPA while taking part in the hobby. 8) Sportsmanship empowers fanciers to welcome, encourage and support newcomers to the hobby. 9) Sportsmanship recognizes the responsibility for the welfare of our purebred pigeons. 10) A good sport mentors, shares knowledge and experience with the novice and or veteran in the fancy.

SECTION 3: HUSBANDRY

The NPA fosters the belief that breeders and keepers of purebred pigeons are trusted with responsible care, housing, and stewardship.

. There is no tolerance for abuse, cruelty or any other form of inhumane treatment. It is expected that proper nutrition, health care including appropriate vaccinations will be provided and recorded. It is recommended that pigeons be NPA banded and numbers recorded by the breeder to enhance the proper return of misplaced birds.

SECTION 4: CONFLICTS OF INTEREST

Conflicts of interest can create an unfair advantage for a member or an official of the NPA. Potential or realized financial gain is a prime example. Competitive advantage in the show room is another. When such conflicts occur the NPA wants to make sure that decisions are made that will be in the best interest of the organization and the fancy. There are several ways that the NPA board may deal with a potential conflict of interest. 1) Board members, officers or employees of the NPA must disqualify themselves from participating in any board deliberation or decision related to the potential conflict of interest. 2) Board members, officers or employees of the NPA are required to consider whether their impartiality may be questioned whenever their involvement in a particular matter may have an adverse affect on the organization or fancy. 3) A board member may have a concern that raises a question regarding another board member, officer or employee's partiality. In such a situation, after discussion, the individual will be excused and the NPA board should deliberate to determine whether or not participation by the said individual on the particular matter would be appropriate. 4) Board members, officers or employees of the NPA must not use their office for their own or another's private gain. They are not to use their position, title or any authority associated with their office to coerce or induce a benefit for themselves or others.

SECTION 5: VIOLATIONS

The National Pigeon Association code of ethics is meant to be a guideline but, is not all inclusive particularly to specific situations that might arise. There will be occasions when a member, NPA official or interested party has a concern on ethics violations. These will be referred to the NPA board of directors. They will be handled under the Constitution and By-Laws of the National Pigeon Association Article C X Duties and Powers of the Board of Directors.

Article B X COMPENSATION/REIMBURSEMENT

Section 1: With the exception of Article C X, Duties of the Secretary/Treasurer, Section 9, there shall be no compensation paid for serving in any NPA elected or appointed position.

Section 2: Reimbursement will be given to NPA elected or appointed officials only for those incurred expenses approved by the NPA Board of Directors. Approved expenses must be recorded in the minutes of an official NPA Board of Directors meeting.

Section 3: As the majority of NPA business is conducted at the NPA Grand National Show & Convention, it is necessary for the NPA elected officials to attend the NPA Grand National Show & Convention yearly. It is also usual and customary for the elected officers of the NPA to spend up to 50% of their time at the convention in official NPA meetings or events. Recognizing that this is a costly requirement, as partial reimbursement for expenses associated with attending the official NPA meeting and events at the Grand National Show & Convention, each elected NPA officer, along with the Junior Director, will receive a partial reimbursement of expenses in the amount of \$350. In an election year, the outgoing officer receives this partial reimbursement, the incoming officer does not.

Section 4: An expense receipt must be submitted to the NPA Sec./Treas. for any and all reimbursements.

ARTICLE B XI JUNIOR PROGRAM

Section 1: One-half of NPA auction proceeds will go toward the Junior Scholarship with the other half going toward the Junior Program operating funds.

ARTICLE B XVI GRAND NATIONAL SHOW GUIDELINES

Section 1:

National Pigeon Association

Grand National Show Guidelines

LOGISTICS

LOCATION

Many people traveling to the Grand National Show will travel by air. This means the show hall must be in or near a city serviced by the major airlines such as Delta, United, American, Northwest, etc. The airport should be served by large jet plane traffic as small commuter planes will not be able to handle the large number of fanciers nor their pigeon carriers.

VENUE

First of all, it is very important to understand that the type of venue may strictly dictate aisle spacing, floor layout, types of paper and bedding you may use, routes of traffic for transporting birds, the use of Union labor for certain work, show hall hours, etc. Local FIRE & HEALTH codes must be obeyed and they vary depending on the type of venue and location.

For obvious reasons, the venue should be located in a decent area where crime rates and safety concerns are low.

There are two types of venues possible for use as a show hall. Both have their advantages and disadvantages.

Convention center attached to a major hotel.

The obvious advantage to this arrangement is that everything is under one roof. There is no need for transportation between the show hall and the host hotel. Once inside you have everything needed without leaving the facility ... room, restaurant, lounge, show hall.

The disadvantage to this arrangement is that there will probably be many more restrictive rules that you must comply with regarding the show. Some of the restrictions you may be forced to comply with have previously been mentioned, but you may encounter others.

Convention center (stand alone)

The major advantage to this type of show hall is, depending upon location, there may be fewer FIRE & HEALTH codes that you need to comply with. There may also be fewer Labor Union issues. So you may find it easier to setup and teardown using your own labor. You should have no problems using the type of paper and shavings you want for bedding. Access with birds will be less restrictive. Minimum aisle width may not be dictated to you. In other words, when planning a Grand National in this type of venue it may be more like the pigeon shows you are used to setting up and attending.

Of course the disadvantage is that you are separated from the host hotel where people will be staying and where the NPA meetings and banquet will be held. In this case, well coordinated transportation becomes very important.

Regardless of the type of venue, the requirements to host a good show remain:

1. The venue must be large enough to accommodate the number of birds you expect, separate judging areas for each specialty club, areas for vendors, area for the NPA Auction, area for the NPA Secretary's tables, area for exhibitor check-in, area for food vendor, and ample room to walk between these areas. A good rule of thumb is the number of usable square feet should be about 7 times the number of birds you expect. This would give you approximately 6' wide aisles. For example, if you expect 5,000 birds your venue should have about 35,000 square feet of usable space. Choosing a venue with a smaller area-to-bird ratio will necessitate the narrowing of aisles. An area-to-bird ratio of 4.5 would give approximately 4' wide aisles. This should be the minimum ratio used when determining the needed usable square-footage of the show hall.
2. Lighting must be adequate in ALL areas of the show hall. Remember, judging cages will probably be setup against exterior walls and in corners.
3. Superb ventilation is a MUST. For the duration of the show the air must be kept clean and fresh. The ventilation system should turn-over the entire volume of the show hall several times an hour.
4. The venue should have a good heating system that evenly heats the show hall and maintains the temperature at a comfortable level during the duration of the show.
5. The venue should have meeting rooms available for use by Specialty Clubs.
6. A good PA system is necessary.
7. Evaluate your venue for security. How many exits are there and how difficult will it be to maintain good security to prevent theft of birds?
8. Access to the venue should be at ground level.
9. Parking should be on ground level and directly adjacent to the show hall. Having to negotiate stairs or elevators is not desired. The ease of transporting birds from vehicles and into the show hall should be addressed.
10. There should be a food vendor in the show hall with a variety of offerings. Many fanciers will spend most of the day in the show hall and having a nice choice of vendor offerings is appreciated.
11. Removing ALL carriers from the show hall cuts the risk of theft. If you are going to require all carriers be removed from show you will need a place to store them.

Venue Contract

The following items must be listed in your contract with the Venue:

1. DATES: Plan for 2 days setup and 3 days show. Decide if teardown can be completed the night after the show ends or if you need the following day. With proper planning and manpower there should be no need for the extra teardown day, but take that into consideration
2. HOURS: Typically you will want the show hall at 7am every day (setup & show). On setup days and the first show day you will want the show hall until about 10pm. The day of the banquet you will

close the show hall early, around 5pm. The last day you may need the show hall until midnight or later for teardown

3. COST: Have the daily cost listed in the contract. Try to negotiate a reduced daily cost for setup days. Is there extra cost for meeting rooms, PA systems, cleaning after the show, tables, chairs, security, fork-lift operators, Union labor such as electrician or carpentry, loading dock use, etc? What services and work MUST be performed by Venue personnel and what work are you able to perform yourself? Are there parking fees or fees to enter the venue? For the benefit of those coming to your show, try to negotiate parking and entry fees out of the contract. Any and All associated venue costs should be listed in your contract. Try to negotiate a "package" rate for use of Any & All needed services. It may be more cost effective than an itemized billing of everything used.

4. FOOD VENDOR: Have the hours the vendor will be open and offering food & drink clearly listed.

SECURITY

Preventing the theft of birds and carriers is of primary importance. The following steps can decrease the opportunities for theft or unintended boxing of the wrong birds:

1. Remove ALL carriers and boxes from show hall and store them in a secured area.

2. Birds not entered in the show should not be in the show hall.

3. Once in the show hall, birds should not be leaving until the show is over. This includes birds that are purchased in the show. An exception may be if both the buyer and seller bring the bird, the coop card, and identification to the Show Secretaries desk for check-out. The Show Secretary, or designee, should accompany buyer out of building with bird and past security.

4. Exits should be patrolled and no birds allowed to leave without the Show Secretaries approval as noted above.

5. If you have a sale section there should be a physical barrier between it and the birds in the show. There should be ideally only one entrance/exit and it should be monitored. Birds should not be allowed to be transported between sale section and show.

6. At the end of the show ask everyone to crate their birds and everyone must remain in the show hall until all birds are crated. After all birds are crated, and no birds are reported to be missing, then release everyone to leave the show hall.

HOST HOTEL

You will need to provide at least 300 rooms for those attending the show. Ideally, the Host Hotel would be large enough to provide most of these. If you must use more hotels to provide a sufficient number of rooms, they should be close to the show hall and preferably close to each other. The Host Hotel should offer Hotel shuttle service between the airport and the hotel. Strongly encourage all those traveling by air to stay at the Host Hotel so they may utilize the shuttle between the Host Hotel and the show hall. If the Host Hotel is not adjacent to the show hall, or within a block or two, you will need to provide transportation between the show hall and the Host Hotel in the morning and evening. Be prepared to provide up to 3 hours of shuttle service in the morning and up to 3 hours in the evening. Try to negotiate with the Host Hotel to provide this shuttle service.

A meeting room will be needed by the NPA BOD. This room should accommodate about 16 people. Normally, breakfast is served during the BOD meeting in the meeting room. So either a menu or a small buffet should be made available. In addition, a meeting room to accommodate about 150 people will be needed for the NPA Membership meeting. If there is a meeting room large enough to accommodate the NPA Membership meeting at the show hall that would perhaps be a better choice. Lastly, a room will be needed for the NPA banquet. Try to negotiate with the hotel to comp ALL these rooms since you are providing them with such a large number of guests. The meeting room times will need to be coordinated with the NPA Secretary

You should establish a contract with each hotel you are using that clearly states the number of rooms in your block, room-rates, the tax rate, parking rates, incidentals and amenities. In order to release your club from the liability of paying for unsold rooms, there should be a cutoff date agreed to when the hotel will release the balance of unsold rooms to the general public. Try to get the cutout date extended past the cutoff date for entries as people may not reserve their room until after they have sent in their entry. A cutoff date 2-3 weeks before the show date works well. It is customary, with such a large meeting, for the hotels to give your club a rebate for each room-night sold. A rebate amount of \$5.00 per room-night is

common and will provide you with additional revenue to cover show expenses. Make sure all these terms are printed in the contract.

The requirements for the Host Hotel are:

1. Shuttle to and from airport
2. Banquet facilities for up to 250 people
3. Full service restaurant serving breakfast, lunch and dinner
4. A lounge or gathering place for fanciers to enjoy camaraderie when not attending the show
5. Meeting rooms for the NPA BOD on Thursday morning, Friday morning and possibly Saturday morning
6. A meeting room that accommodates up to 150 people for the NPA General Membership meeting on Thursday night

Host Hotel Contract

The following items must be listed in your contract with the Host Hotel:

1. Room rates
2. Tax rate
3. Number of rooms in block
4. Room cutoff date
5. Room-night rebate to your club
6. Comp room rate based upon room-nights sold
7. Rates for meeting rooms used for non-NPA purposes
8. Rate for banquet room (including PA system & A-V equipment)
9. Banquet menu and cost
10. Banquet room hours
11. Rate for NPA BOD meeting rooms (paid by NPA)
12. Rate for NPA Membership meeting room (paid by NPA)
13. Airport shuttle service
14. Parking rates
15. Restaurant hours
16. Lounge hours
17. Incidentals
18. Amenities

NPA Banquet

The NPA Banquet is the social and professional highlight of the show. At the banquet the NPA President addresses the attendees, the host club and its individuals are acknowledged and NPA Awards are presented. NPA Master Breeder, NPA Master Judge and NPA Service Awards are presented at the banquet. There is typically either an educational program presented or entertainment provided such as local musicians offering tasteful music to fit the event. The banquet tends to be a more formal event with nicer dress than one would wear in the show hall. It has been customary to have the banquet room open an hour prior to the start of the program to allow fellowship among fanciers. The program proceeds with a nice meal, NPA business and then a program or entertainment.

Both plated and buffet serving have been used with success. Try to offer as high a quality meal as possible within budgetary constraints. If offering plated meals you will have to ask people to make their entrée choice at the time they purchase their tickets. It is normal for hotels to ask for a final head count 48 hours prior to the banquet so they can purchase and prepare the meals. The cost of the banquet is about \$30 - \$35 per person, including tax, at the present time (2009).

NPA Banquet Requirements

1. Room to accommodate 200 people
2. Head table for NPA Officers (16 people)
 - a. Preferably on a riser or small stage
3. Podium at NPA table with microphone & light
4. Availability of audio-visual equipment for presentations

5. Cash bar
6. If having a buffet, offer at least two nice choices for an entrée. Include vegetable and starch choices as well as dessert choices
7. If serving plated meals, offer at least two nice entrée choices that include vegetables along with dessert choices
8. The NPA BOD is responsible for the program at the banquet in conjunction with the host club

TRANSPORTATION

If there are any fees for transportation during the NPA National Show, those fees shall be clearly publicized in promotional materials and on the Entry Form

1. Airport to Host Hotel
 - a. Host Hotel airport shuttle for people only
 - b. For people with birds they will need to be taken to hotel for check-in and to the show hall to coop birds
 - i. Request people flying with birds to list airline, arrival time, and size of carriers on their entry to arrange pickup by volunteers
 - ii. You will also need to know their departure time and airline
2. Host Hotel to show hall
 - a. Provide up to 3 hours shuttle in morning and up to 3 hours in evening
 - i. You will have to provide shuttle service if Host Hotel will not
3. Non-Host Hotel to show hall
 - a. Attempt to get hotel to provide shuttle service
 - b. For non-Host Hotel guests provide taxi or other transportation information
4. Host Hotel to airport
 - a. Host Hotel airport shuttle may not be able to transport pigeon carriers
 - i. Check with hotel to see if small carriers of birds may be housed in guest rooms overnight
 - ii. Check with hotel to see if they have a secured area to house large carriers of birds overnight
 - b. If hotel cannot safely accommodate birds overnight or transport to airport with guests you will have to accommodate birds overnight in an enclosed area safe from theft and harm. Then you will have to transport them to airport the following morning
 - c. An attractive alternative is to speak with the airlines managers and try to negotiate a deal to bring the birds to the airport on Saturday night after the show. The birds would have to be delivered to the correct airlines for departure with guests on Sunday morning.

5. EXPRESS MAIL BIRDS

- a. You will have to pickup EXPRESS MAIL birds at the post office and transport to show hall
 - i. If exhibitor is not attending the birds will have to be check-in, cooped, fed and watered for the duration of the show
 - b. EXPRESS MAIL birds will have to be boxed up after the show and mailed back to the owner. You will want to box these birds before everyone else is allowed to box birds to eliminate theft.
 - i. You may be able to get the birds mailed back out yet on Saturday. Talk to your Postmaster and they may make special provisions for you to bring the birds in after the Post Office lobby is closed to get them on Saturday's Express Mail route. Find out what the time cutoff is and determine if this is possible It is the best for the birds!!!

INSURANCE

You will need to purchase a minimum of \$1,000,000 liability insurance that covers your club for any damage or injury that may occur during the entire time you occupy the venue. The exact amount is usually dictated by the venue management.

ADMINISTRATION

SPECIALTY CLUB CONTRACTS

1. In the past this has been performed by the NPA Secretary or by the host club with equal success. Prepare and mail contracts to ALL NPA Affiliated Specialty clubs. This should be done by March 1st. You will want to receive all contracts back by June 1st. Contact the NPA Secretary for copies of previous year's contracts. The contract clearly defines what you will provide for their meet and the Specialty Club's responsibilities. You will include an entry blank and rules for them to distribute to their membership. The returned contract will contain information in helping you with the labeling and sorting of coop cards and judging order.

PREMIUM BOOK

1. For most NPA National Shows a premium book has been published and distributed to fanciers who attended the previous 2 National Shows as well as local fanciers who attend shows in the local area. There have been some National Shows where no premium book has been published. Getting an actual premium book into fancier's hands may solicit a larger turnout of exhibitors, especially those wavering on attending. The premium book contains ALL the information regarding the show: date, location, hotel information, airline & transportation information, banquet information, entry blank, show rules, Specialty Club information, etc. With dedicated planning and soliciting of advertisers, a premium book can pay for itself and some very nice collectible quality premium books have been published. A quality premium book can set the tone for the entire show by building excitement and expectation. The premium book should be mailed by October 1st.

PROMOTION

1. With the high cost of advertising, you will want to get the most bang for your buck. The following are strongly suggested media you will want to use:
- a. NPA Quarterly
 - b. Purebred Pigeon Magazine (July-Aug & Sept-Oct issues in particular ... consider Nov-Dec if published prior to entry deadline)
 - c. NYBS Premium catalog
 - d. LAPC Premium catalog
 - e. Other major pigeon show premium catalogs

RECEIVING ENTRIES

1. Open a checking account EXCLUSIVELY for the NPA Grand National Show.
2. Request that all checks written to you are made out to the account name (i.e. "National 2010")
3. Consider using a PO Box for receiving all entries and correspondence. This offers more security than a residential mail box.
4. The NPA no longer receives any part of the entry fee. All revenues received by the sponsoring club is the property of the sponsoring club/

THE SHOW HALL

COOPING

The number of birds at a Grand National Show ranges from about 4,000 to over 10,000. Your numbers will mostly be determined by the number of people within 1 day's drive of your show hall. Due to those who attend most every National show, the Specialty Clubs that show with the National show, as well as the groundswell locally for such an event, you can expect about 2,000-2,500 more birds than your show normally draws.

The number of entries you expect dictates the minimum number of coops you need just for the birds entered. You will have to add an additional 20-25 holes of cooping for each Specialty Club's judging area. You will need up to 100 holes for the NPA Auction. Additional coops will be needed for the sale section, Junior Judging and Specialty Club auctions.

Just as important as the number of holes available is the variety of sizes available. Gone are the days when we can use 4-hole cooping for the entire show. Long ago many breeds developed either the body size or the feather ornaments requiring a larger cage.

Breeds requiring 18"x18" 4-hole or 20" x18" 3-hole cooping (6' or 5' total length, respectively): Show Kings, Swallows, Giant Homers, Show Racers, French Mondains, Swiss Mondains, Oriental Rollers, Dragoons. Figure 10%-15% of total coops.

Breeds requiring 22" x25.5" 2-hole cooping (4.5' total length – Keipper #14): Larger Pouters and Croppers, Giant Runts, English Carriers, Jacobins, Magpies, Maltese, English Trumpeters, Bokhara Trumpeters, larger German Trumpeters, Indian Fantails, Frillbacks, Carneaux, Giant Rumlbers, Hungarian Giant House Pigeons. Figure 10%-15% of total coops.

Most other breeds can be accommodated by the standard 15"x15" 4-hole coop (5' total length – Keipper #9). Figure 70% of total coops.

Most clubs do not have either the number or the variety of coops needed to host a National Show so cooperation with other local clubs becomes key to having the cooping to host a National Show.

TABLES or STANDS

If you are going to use tables under the coops, do you have enough of them? Standard tables are 8' long and 3' wide. This is wide enough to accommodate two rows of 4-hole or 3-hole cooping back to back. It is not wide enough for 2 rows of 2-hole cooping back to back. You could have a double row of tables resulting in a 6' wide row and have a 2' wide gap between the backs of the rows.

If using stands, you can cut a standard 4' wide sheet of plywood into three 8' long and 16" wide strips. These will accommodate the 3 & 4 hole coops. You can also cut a standard plywood sheet into two 8' long and 24" wide strips. These will accommodate the 2-hole coops.

Whether you use tables or stands, the common denominator is the 8' length. Using a 40' row length gives the following:

1. The 40' long row will accommodate 8 5'-long coops (4-hole coops)
 - a. 32 birds in 4-hole coops
 - b. You will place two rows back to back
 - i. 64 birds single-decked or 128 birds double-decked
2. The 40' long row will accommodate 8 5'-long coops (3-hole coops)
 - a. 24 birds in 3-hole coops
 - b. You will place two rows back to back
 - i. 48 birds single-decked or 96 birds double-decked
3. The 40' long row will accommodate 8 4.5'-long coops (2-hole coops) with 4' extra
 - a. 16 birds in 2-hole coops
 - b. You will place two rows back to back
 - i. 32 birds single-decked or 64 birds double-decked

If you have the 6' long 18"x18" 4-hole coops you should use a 48' long row:

4. The 48' long row will accommodate 8 6'-long coops (4-hole coops)
 - a. 32 birds in 4-hole coops
 - b. You will place two rows back to back
 - i. 64 birds single-decked or 128 birds double-decked
5. The 48' long row will accommodate 10 4.5'-long coops (2-hole coops) with 3' extra
 - a. 20 birds in 2-hole coops
 - b. You will place two rows back to back
 - i. 40 birds single-decked or 80 birds double-decked

PAPER UNDER COOPS

Most clubs do not have the luxury of having unlimited tables or stands as well as a large enough show hall to single-deck the entire show so double-decking is commonplace.

On the bottom row of coops you may want to use an inexpensive type of paper such as jumbo tex (plaster craft) or red rosin paper.

The choice for the top row is much more crucial as there is no underlying support between the rows. Paper on the top row must be able to withstand water spills without deteriorating and coming apart. It has been common in the past to use light, 15# felt paper (roofing paper) on the top row. The cost of felt paper has risen quite a bit and other alternatives may be more desirable. But the choice of paper for the top row MUST be durable and MUST NOT deteriorate when wet.

BEDDING

The bedding of choice is wood shavings. Depending upon your venue, you may or may not be allowed to use wood shavings. A 5,000 bird show will use about 40 bales of shavings.

CUPS

Each show coop will require 2 cups, one for food and one for water. Plastic, 5 ounce cups fit well in the coop cup holders. You can also use paper coffee cups with handles on them. Pull out the handles through the wire and staple them around one of the coop wires.

FEED

Kaytee/Baymore Feed Company, from Chilton, Wisconsin will feed every NPA Grand National Pigeon Show. Contact Kaytee and they will send you their 6C-16% protein feed with popcorn and numerous other high quality grains.

If you have a local feed vendor that will furnish a high quality feed, you may use that feed for the show.

All coops should have feed in cups prior to cooping birds. Once the show starts it is the responsibility of the breeders to care for their birds.

WATER

The easiest way to fill water cups is with garden waterers with long spouts. Gallon milk jugs work well also. You should have about 20 water jugs available.

All coops should have water in cups prior to cooping birds.

SETUP

1. Once the entries are received and the breed count is known, the floorplan for the show hall must be drawn-up.
 - a. The floorplan should include the location of the rows of show coops, the number of coops in each row and the breed designation.
 - b. The floorplan should include the location of vendors, judging areas, NPA raffle coops, the NPA Secretaries desk, the check-in desk and any other areas within the show hall.
2. The floor must be marked with chalk lines to clearly delineate the placement of the rows of show coops. Each row marked should also be marked with the type of coop to be setup (4-hole, 3-hole, 2-hole, etc).
3. Using the floorplan, distribute coops and stands/tables where needed.
4. It works well to designate certain people to setup stands/tables.
5. A second group comes behind them and puts down the paper and sets up the coops on the stands/tables.
6. After the show is nearly setup, start a group going around with a large cart full of shavings and put bedding in the coops.
7. The last thing to do is to place two cups in each cage and fill them with food and water.

COOP CARDS

1. Many people will show up early to coop their birds. Take advantage of this and let the Specialty Clubs put up their own coop cards. In this fashion, the coop cards will likely be put up the way the club wants as it does vary between clubs.
2. In the absence of Specialty Club involvement, coop cards should be placed under the direction of the Show Secretary as this person has the Specialty Club contact information.

PERSONNEL REQUIRED

1. Show Secretary (in charge of ALL aspects of show)
2. Show Superintendents (1-2 people who work directly under and assist the Show Secretary)
3. Floorplan layout and marking (4 people with one being the floorplan foreman)
4. Setup & Teardown Foreman (in charge of the setup & teardown crews)
5. Setup & Teardown Crew (approximately 25 people who work at the direction of the Setup & Teardown Foreman)
6. Feed/shavings/paper/cup coordinator (facilitates acquiring materials for show and placing in show coops at setup)
7. Vendor liaison (solicits vendors for the National show)
8. Express Mail Coordinator (receives Express Mail birds, places them in show coops, feeds & waters birds, boxes them at end of show, mails them back out to owners)
9. NPA banquet coordinator (interfaces with Host Hotel to setup banquet details, select menu, setup program/entertainment and sell banquet tickets at show)
10. Raffle coordinator, if applicable (oversees club raffle as a fundraiser)
11. Exhibitor check-in (2 people who greet exhibitors and check them in to the show)
12. Sale Section Foreman (oversees the sale section and enforces the sale section rules with the aid of 2 stewards)
- 13.
